🐍 *Pythonic*

An interactive CLI application for python learners
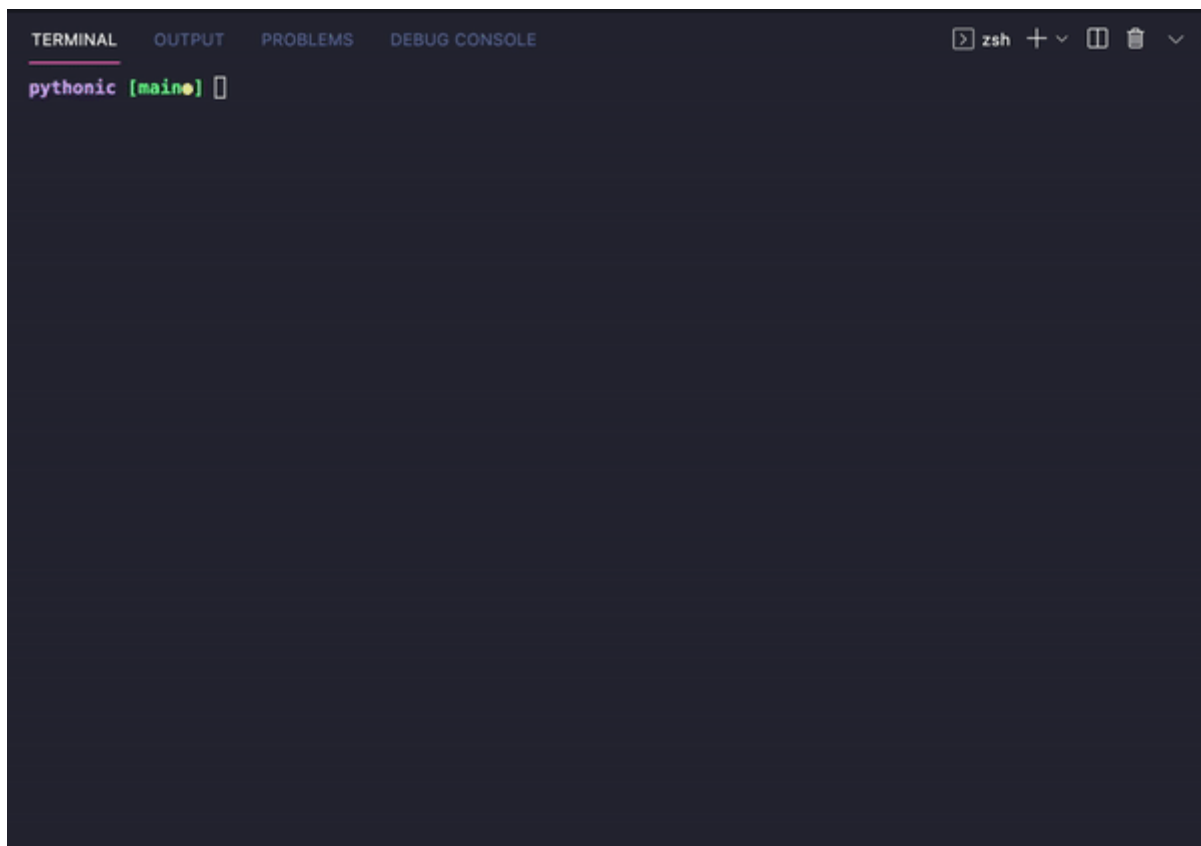

Answer random interactive python questions via the terminal and get prompted if 👍 correct or 💩 incorrect. One point gets added to users total score if correct. A incorrect answer creates a prompt displaying the correct answer. In addition, correct answers are written to a txt file for later review. Enjoy 😊 !!!
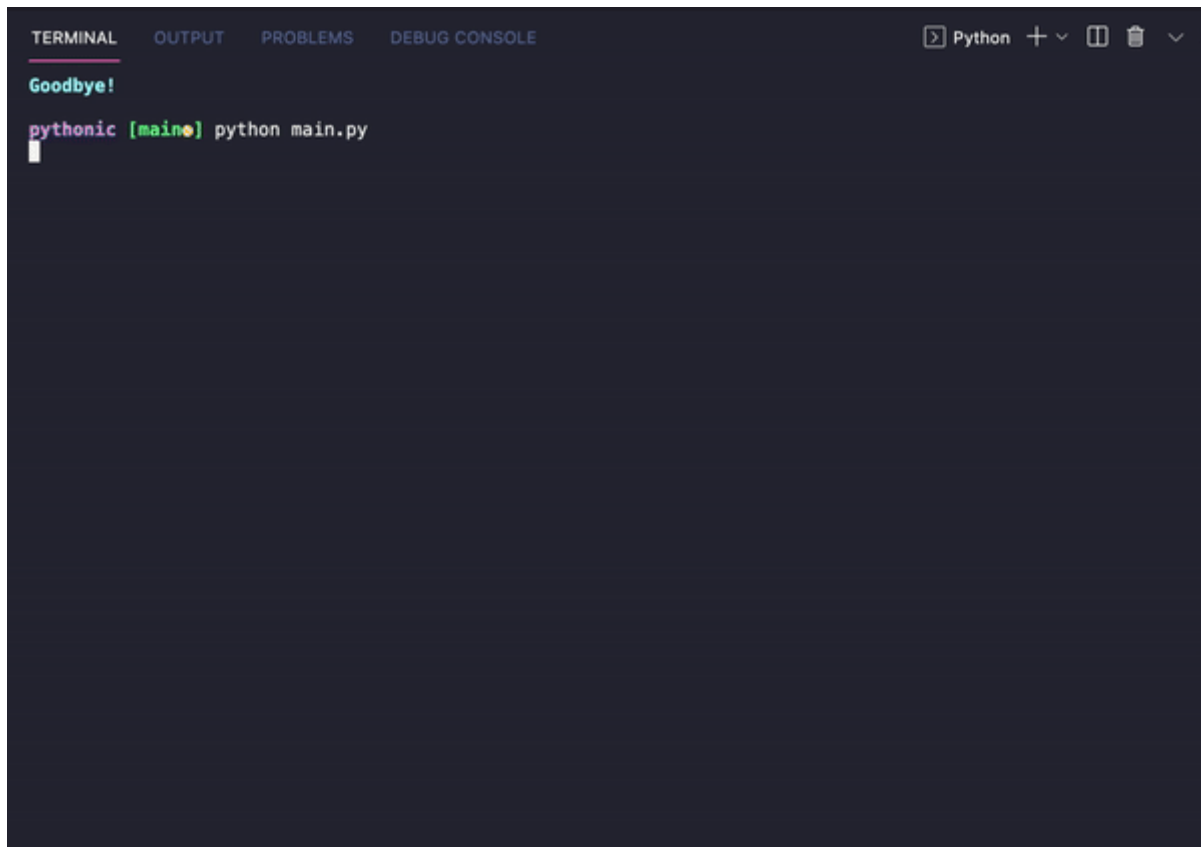

Run: python3 main.py to start the application

```
===================== Instructions ======================

▫ Use double "quotes" unless otherwise
▫ When coding indent 3 spaces
▫ Type exit() to exit game
▫ Type restart() to restart game
▫ Type skip() to skip a question
```

PROMPTS: help keep you on your toes...

CODING: interactive coding challenges...

STUDY: future studies for interviews... maybe not
